

New Diplomas in 2022

- Exercise Science
- Nutrition Science
- Biomedical Science
- Business
- Information Technology

What are the goals?

- Provide a positive and supportive pathway into Bachelor programs for those making a large step into tertiary study
- Provide qualifications and alternate pathways to students not sure about further study immediately

What do Diplomas look like?

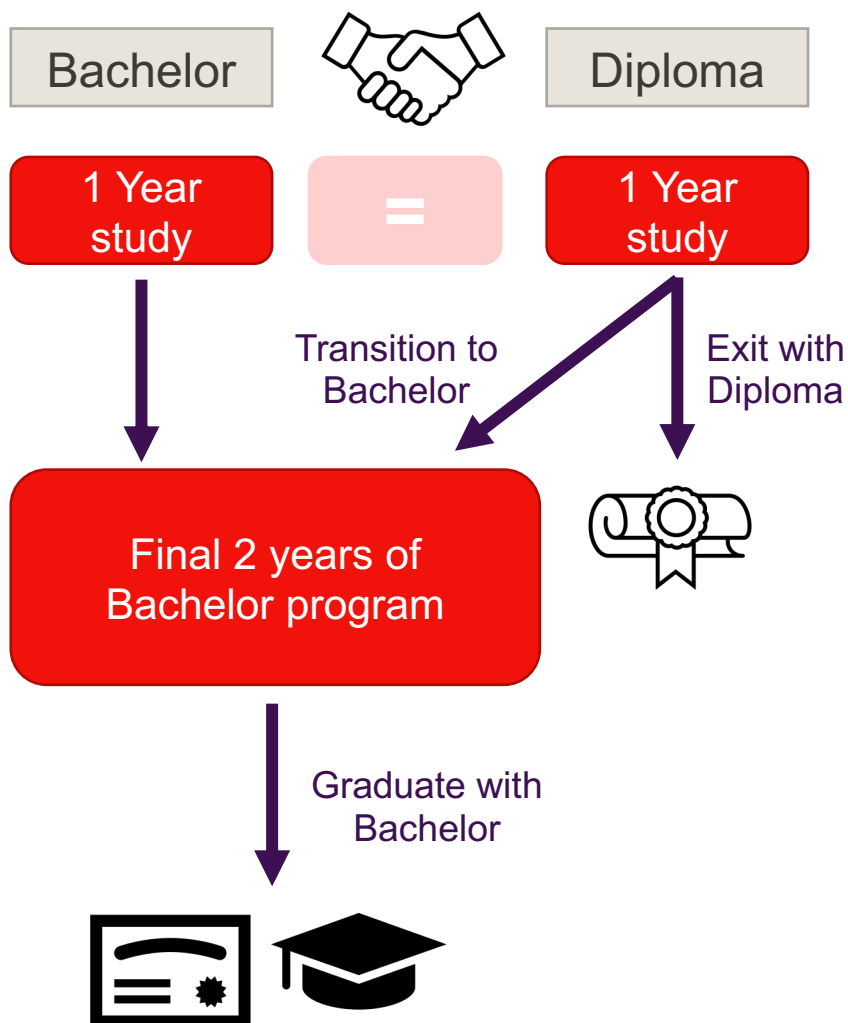

- 1-year stand-alone course
- 1 unit specific to academic literacy and study skills
- 7 units that are “mirrored versions” of 1st year Bachelor equivalents, designed specifically for students transitioning into tertiary study
- Staffing and administration of Diplomas run directly by Education Pathways in close consultation with Disciplines, Schools and Faculties

What are the benefits for students starting their study with a Diploma?

- Direct entry into discipline-specific Bachelor degree with 1 full year of credit, or a range of other courses at ACU
- Extra resources, activities with learning tailored for those transitioning into tertiary study
- Qualification after 1 year of study
