

Professional Experience (ProfEx) Surveys

Collecting your views on learning through placement

The Professional Experience (ProfEx) survey is your opportunity to provide valuable feedback on key aspects of your placement, from how well our pre-placement support prepared you for the placement tasks, to how your confidence in the workplace increased over the time spent at your placement.

ACU will use the information collected to better prepare and support students before and during their professional learning experience. Your feedback will also help staff in placement locations improve their supervisory skills.

Links to online surveys will be sent to ACU email accounts for students from 'Evaluations LTC'. The surveys can also be accessed through the Evaluations block on the LEO homepage.

Presently, ProfEx surveys are available for students in selected units offered by the Faculty of Education and Arts and the Faculty of Health Sciences.

For further information contact, Evaluations.ltc@acu.edu.au.
