

Connect to EDUROAM WiFi Android Setup Guide

Introduction

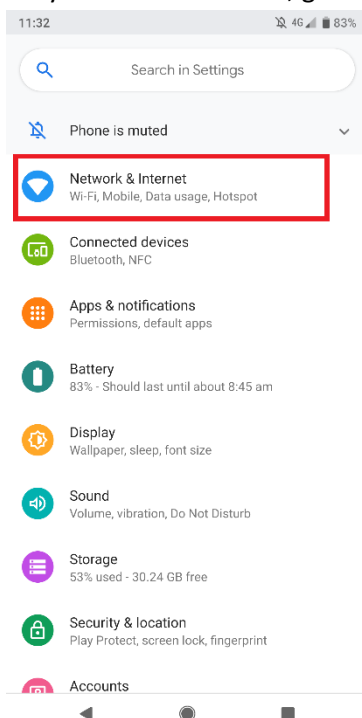

This guide will show you how to connect to the EDUROAM WIFI that is available in participating universities including ACU from your Android device.

It is important to note that Android operating systems vary depending on the software version and device manufacturer. This procedure may vary slightly depending on the brand of your device as well as the version of Android running on it.

For students and staff of ACU, follow the steps outlined in the guide below. Connect to the EduRoam Wireless using your network login details:

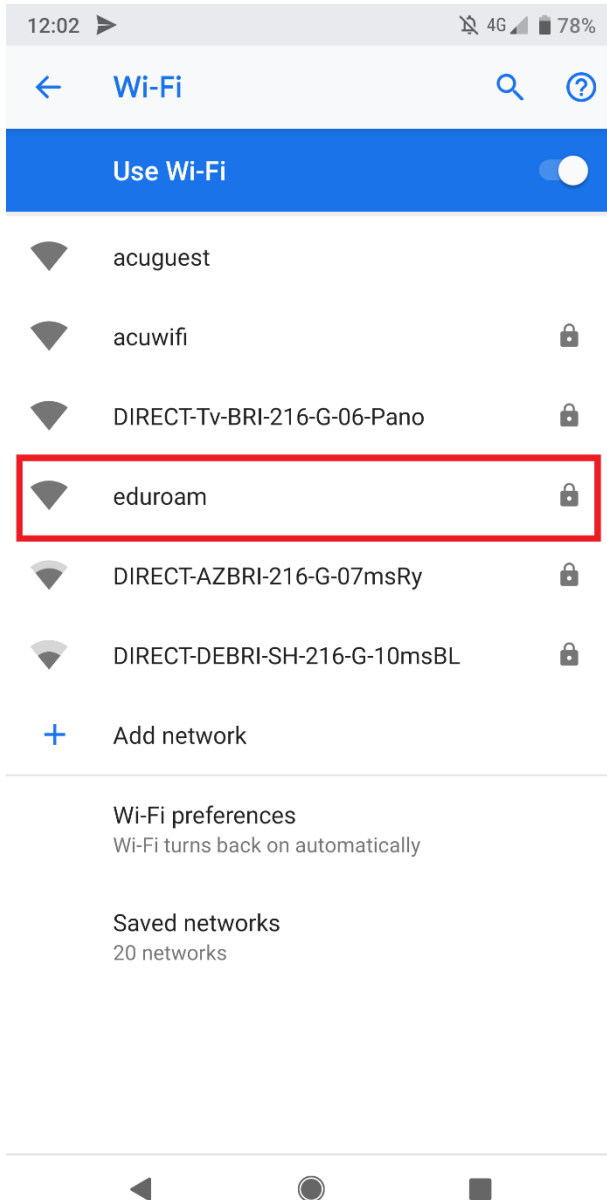

- Staff - e.g. Tim Smith would be tismith@acu.edu.au and password
- Student - e.g. Student S00034567 would be s00034567@acu.edu.au and password

1. On your Android device, go to **Settings > Network & Internet**.
