
Introduction

This guide will show you how to connect to the EDUROAM WIFI that is available in participating universities including ACU.

For students and staff of ACU, follow the steps outlined in the guides below. Connect to the EduRoam Wireless using your network login details:

- Staff - e.g. Tim Smith would be tismith@acu.edu.au and password
- Student - e.g. Student S00034567 would be s00034567@acu.edu.au and password

If you require to configure the connection to EDUROAM manually, here are the technical details to connect to the WIFI:

Network SSID: eduroam

Security: 802.x.EAP EAP

Method: TTLS, PEAP Phase 2

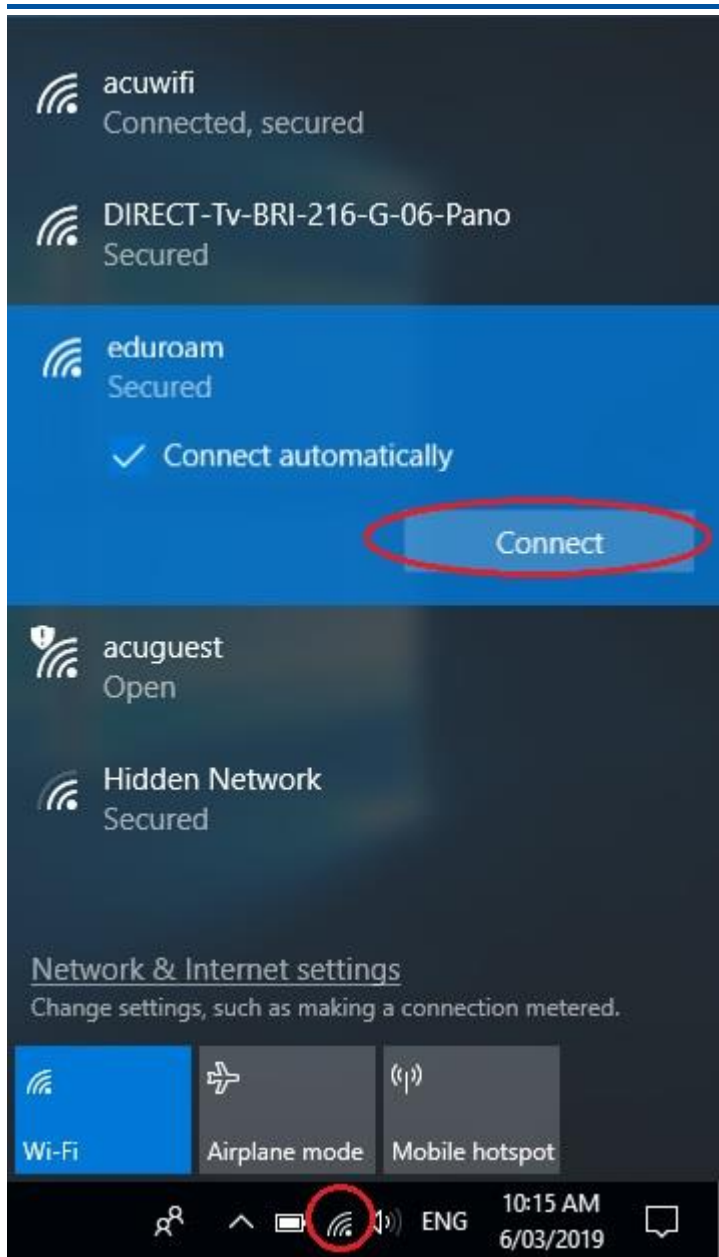

Authentication: TKIP, AES CA

Certificate: AddTrust External CA Root

Windows 10

1. Click on the WiFi symbol on the bottom right of the system tray and select “Eduroam” from the WiFi list. Click on “Connect”

Connect to EDUROAM WiFi

2. Enter your user credential details and then click “Ok”.

Connect to EDUROAM WiFi

3. You may get a prompt to continue connecting – if you do, click on “Connect”.
