

When prompted for your username, enter it in the following format

- ACU Student, s1234567@acu.edu.au
- ACU Staff, jdoe@acu.edu.au

Follow the steps below to connect a Windows 8 machine/tablet to Eduroam

1. To configure Windows 8 computer/tablet to join Eduroam Wireless, move your pointer/cursor to the top or bottom right corner without clicking. The **Charms Bar** will appear on *the right*.
(On Windows tablet, swipe on the right side of the screen to show the **Charms Bar**)

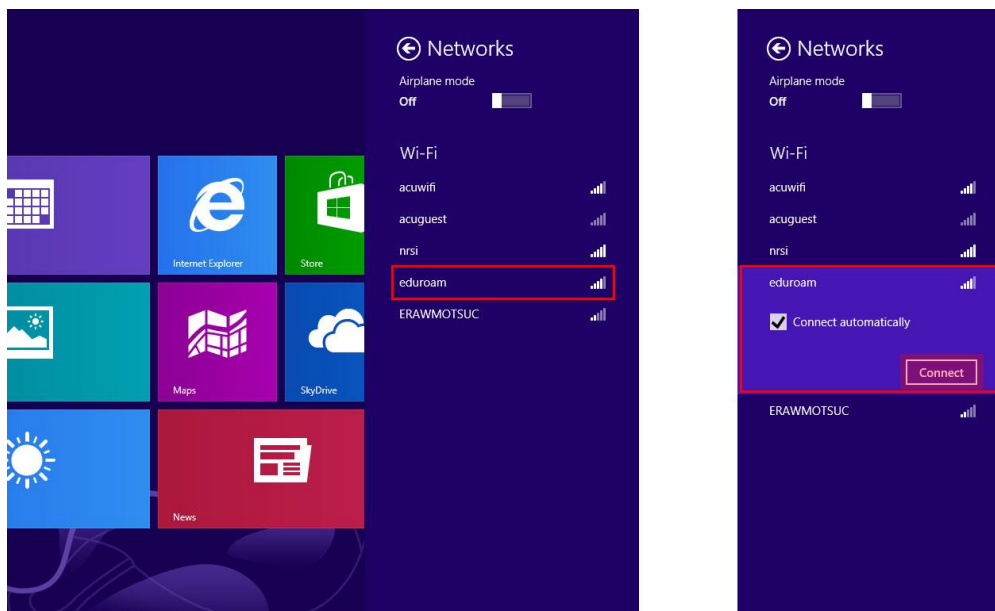

Click on **Settings** icon on the **Charm Bar**.

2. On the **Settings Bar**, click the **Wi-Fi icon**. **Wi-Fi icon** will read **Available** underneath the icon if there are wireless networks available.

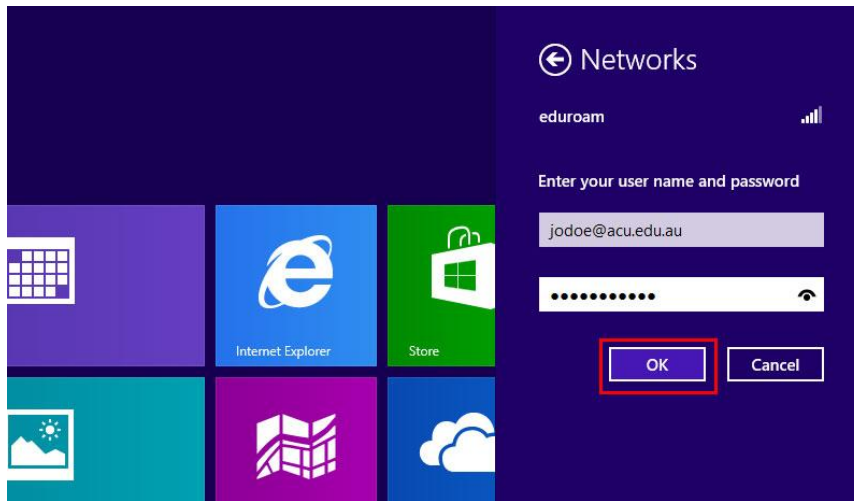

3. **Network Bar** will display a list of available wireless networks. Click **eduroam**, **eduroam** will become highlighted when it is selected and **Connect** button will appear. Click **Connect**.

(Windows may display **Checking network requirements** while it detects the security settings for the wireless network.)

4. Enter your ACU credentials.

- Your **User name** will be the **eduroam identifier** shown (typically your *username* followed by *@acu.edu.au*. e.g. *jodoe@acu.edu.au*).
 - Your **Password** will be your windows domain password or your email password.
 - Click **OK**.
5. You will be then prompted to accept the **Authentication Server's Certificate** to initiate encryption.
 6. To proceed, click the Connect button to accept the certificate
